An employer might say about me that I am hardworking, reliable, and that I don't use any addictive substances (including tobacco and alcohol) that can interfere with my work. They may say that I am a steady worker, but not generally fast, I am polite and pleasant to be around, In addition, they may say that I am handy, with the ability to solve or fix many things that other people lack basic skills and/or common sense for.

### M Y W O R K E X P E R I E N C E

I grew up on a farm that we built from the ground up. I have many skills in farming, mechanics, construction, and small-scale logging and wood processing. I am familiar and comfortable with operating an excavator. To add, I worked in a greenhouse where I did greenhouse work and general maintenance on equipment and buildings.

I want to be a logging equipment operator because I have dreamed of doing this work since I was very young. I love working outdoors, especially in the woods. I love running equipment, especially hydraulic equipment. I really enjoy working in the forwarder specifically.

An employer might tell you that I am clean cut and hardworking. In addition, they might rave about my willingness to learn on the job.

M Y W O R K E X P E R I E N C E

I have a lot of work experience in the logging industry. I have 3 years of experience with moving logs, unloading and sorting, loading logging trucks, and skid logs using various equipment, while performing other various tasks. In addition, I have 2 years of experience operating late model dozers, excavators on both CAT and John Deere controls, as well as other equipment to level off, back fill, grade surfaces, dig trenches, build and maintain haul roads, load dump trucks. The various equipment I have experience with includes: motor graders, off road dump trucks, pull pan scrapers, backhoe loaders, rubber tire loaders, rubber tire compactors, knuckles boom log loaders, cable and dual bogey kidders wheel loaders with log grapples, and compact track loaders.,,
